DeLuna, Arcadia, Rosewood, Olive Branch

Hello,

Physician Services Group of Florida is honored to be your partner to provide Physician and Nurse Practitioner care in your buildings. We work hard every day to not only provide great clinical care to the patients, but to also have consistent operational practices across our buildings. In a time when quick, regular changes and unpredictable times have become the “norm” we appreciate your partnership as we work to hire providers and support staff for our growing PSGFL Team.

PSGFL is incredibly proud of all the growth and care that we have provided in collaboration with GCHC. The DeLuna COVID recovery center has seen incredible success and we are grateful to Dr. Meg Maguchi for her commitment to the best patient care for these fragile patients. The growth of this new center with some very acute patients requires additional support and staffing from PSGFL and we have been and continue to hire new Nurse Practitioners.

With all the growth, we saw a need for additional physician support and are excited to announce that Dr. Chris DeNapoles has joined PSGFL as an attending physician and he will provide clinical care for patients in the buildings we serve. You are likely already familiar with Dr. DeNapoles since he has been caring for patients in Olive Branch and is a familiar face in the Pensacola area. Next Friday, September 4th, Dr. DeNapoles will stop by to physically introduce himself to the GCHC staff.

Thank you all for your support of PSGFL and our commitment to provide the best patient care for GCHC's patients. Please let me know if you have any questions

Best,

Dawn-Michele Blalock
